

# PROFILO<sup>®</sup>

PROFILO<sup>®</sup> ON SKIN.

EVERYONE IS A MASTERPIECE.

Caring Innovation

# WHAT IS PROFILO®

The first revolutionary bio-remodelling “injectable skincare” that addresses skin laxity and signs of aging through the bio-stimulation of collagen, elastin and adipocytes (fats) stem cells that were lost through skin aging.

- 1 New anti-aging approach with innovative technology that targets from the inside out
- 2 Uses 100% pure hyaluronic acid
- 3 High hyaluronic concentration using 32mg of hyaluronic acid (high molecular weight) and 32mg of hyaluronic acid (low molecular weight)
- 4 Intervenes the process of aging tissue, bio-stimulates elastin and collagen
- 5 Addresses signs of skin aging naturally

## SUGGESTED TREATMENT PROTOCOL\*

\*3rd treatment after 2 months may be required depending on skin laxity.

# WHY PROFILO®

- 1 Formulated with unique patented NAHYCO® Hybrid Technology

- 2 Clinically proven for safety, efficacy and bio-compatibility
- 3 Sustainable results without use of chemical cross-linking agents, reducing chances of inflammation
- 4 Reaches multiple skin layers, targeting skin laxity and loss of collagen
- 5 Unique BAP (Bio Aesthetic Points) injection technique for optimal diffusion of the product

With just 5 BAP injection points per side of the face, Profhilo diffuses through the different skin layers, across the widest sections of the face through, bringing a natural and lasting refreshed look.

The 10 BAP injection points for neck is carefully developed to avoid injury to vital structures, providing anti-aging benefits from the inside out.

# BENEFITS

## PROFHILO®

- 1 Bio-stimulates **elastin**, 4 types of **collagen** and **hydration** in the 3 main layers of the skin
- 2 Provides **firming, tightening** and **lifting** effect to the skin
- 3 Improves overall skin quality and **hydration**
- 4 Fast and effective treatment with **minimal pain and downtime**
- 5 Provides **tissue repair** process, ideal for acne scarring

**12X** increase  
of collagen and elastin  
in the skin<sup>1</sup>

**8X** more  
lasting in the skin  
than regular  
non cross-linked  
hyaluronic acid<sup>1</sup>

**20%** increase  
in skin hydration<sup>2</sup>
